

WHO WE ARE

Indo Nafaz Group is a trusted Indonesian wood pellet supplier and exporter, specializing in high-quality biomass fuel made from 100% natural wood waste.

We are committed to supporting the global transition toward carbon-neutral energy by providing sustainable and efficient renewable fuel to power plants, distributors, and industrial users across Asia and Europe.

As a leading wood pellet supplier from Indonesia, we ensure consistent quality, competitive pricing, and environmentally responsible production to power a cleaner, greener future.

PRODUCT TYPES

Wood Pellets (WP)

- Diameter: 6–8 mm
- Length: 10–30 mm

Applications
